- **Number all your answers and indicate the order of appearance in the space provided in the cover page of the examination answer booklet**

1. Using the four (4) goals of community health nursing discuss in details the roles and duties of a Community Health Nurse specialist in ensuring the county population remains healthy. [25 marks]
2. You have been working in community X for two years and have noted that cases of malnutrition are on increase. This is a community that is located in an area that is rich in resources and the weather is good. Using **Nursing Process** describe how you would develop a **health promotion program** targeting young parents [25 marks]
3. (a) Explain how primary health care/community strategy activities are funded in Kenya. [5 marks]
(b) Primary Health Care (PHC) was meant to bridge the gap of disparities in health care indicators between the developed and developing countries. Using **ELEMENTS** of primary Health Care explain why PHC would be the best approach to help achieve “essential health care” for all Kenyans. [20 marks]

NUCH 841

4. (a) Discuss using relevant examples, the main differences between **family health nursing, Hospital/bedside nursing and home based care** highlighting the main components in each. [12 marks]
- (b) Explain their application in Community Health Nursing Practice. [13 marks]
-
