CHUKA

UNIVERSITY

11.30 A.M – 1.30 P.M.

UNIVERSITY EXAMINATIONS

FIRST YEAR EXAMINATION FOR THE AWARD OF DEGREE OF BACHELOR OF SCIENCE IN APPLIED COMPUTER SCIENCE

ACSC 121: PROGRAMMING PARADIGMS

STREAMS: BSC (APPLIED COMPUTER SCIENCE) Y1S1 TIME: 2 HOURS

DAY/DATE: FRIDAY 14/12/2018

INSTRUCTIONS:

• Answer question 1 and any other two.

SECTION A: Answer all questions in this section

QUESTION ONE (30 Marks)

a)	Distinguish between Selection and Iteration control structures.	[4 marks]
b)	 Using a control structure of your choice: i) Write a program that prints all the ODD numbers less than 10 in re ii) Draw a flowchart for your program in i) above. 	everse order. [6 marks] [4 marks]
c)	Describe TWO ways by which string input can be read to a variable in C.	[4 marks]
d)	Outline any 4 rules in naming identifiers.	[4 marks]
e)	Write a program that accepts two numbers. The program then display Product, Quotient and Remainder (Modulus) separated by tabs.	vs the Sum, [6 marks]
f)	Giving examples define escape sequences in C.	[2 marks]

SECTION B: ATTEMPT ANY TWO QUESTIONS (40 MARKS)

QUESTION TWO (20 MARKS)

a) Highlight the aspects of a function in relation to the C programming language giving the syntax for each aspect in C. [6 marks]

b)	Differentiate between interpreters and compilers.	[4 marks]
c)	Write a program that stores the first 20 prime numbers into an array.	[6 marks]
d)	Write the algorithm for the program in c) above.	[4 marks]

QUESTION THREE (20 MARKS)

a) Define what a data type is and define any **TWO** primitive data types used in most programming languages. (Use a programming language of your choice). [4 marks]

b)	Explain Polymorphism, Abstraction and Inheritance as used in objeprogramming.	ect oriented [6 marks]		
c)	Discuss the difference between the Do-While and While loop controls a example program that implements either.	and write an [6 marks]		
d)	Draw a flowchart that explains the ifelse selection construct.	[4 marks]		
QUESTION FOUR (20 MARKS)				
a)	Outline the features of high-level programming languages.	[4 marks]		
b)	Differentiate between Source code and Object Code in compiled programs	5. [4 marks]		
c)	Suppose a set of integer values are stored in an array:i) Write a function to determine the largest value in the array.ii) Write a pseudocode for your program in i) above.	[4 marks] [4 marks]		
d)	Outline the properties of an effective algorithm.	[4 marks]		
QUESTION FIVE (20 MARKS)				
a)	Outline the merits of dividing large programs into functions.	[4 marks]		
b)	Outline the generic steps in any software development process.	[5 marks]		
c)	A computer repair shop charges KSh. 100 per hour for labour plus the cost of a in the repair. The minimum charge for any job is however Ksh. 150.	ny parts used		
	i) Write a program that prompts for the number of hours worked and parts and displays the charge for the job. Use symbolic constants.			

ii) draw a flowchart for your program in i) above. [5 marks]
