ANSWER ANY FOUR (4) QUESTIONS

1. There is an increase in cases of non-communicable diseases in the community where you live. As a community health specialist you have decided to follow up a case of hypertension to better understand issues surrounding these non-communicable diseases. Describe how you would analyze behavior and lifestyle of your client and collaboratively plan with him/her on how to promote optimal health. (25 marks).
2. Compare and contrast **family health nursing, Hospital/bedside nursing and home based care** highlighting the main components in each (25 marks)
3. There is a lot of changes and deviation from the traditional ways of health care delivery systems. Discuss some of the Life style and preventive health interventions being practiced today that were not evident in the past. (25 marks)
4. a. Explain four (4) types of community needs assessment. (10 marks)
b. Explain giving relevant examples the community needs assessment process. (15 marks)

5. Compare and contrast descriptive studies and analytical studies in community assessment.

(25 marks)
